

2015

1. Two-dimensional generalized thermoelastic diffusion in a half-space under axisymmetric distributions, J.J. Tripathi, G.D. Kedar and K.C. Deshmukh, *Acta Mech.* (Springer), 226, 3263–3274.
2. Theoretical Approach to Study disturbances due to mechanical Source in a Generalized Thermoelastic Diffusive Half Space, K.C. Deshmukh, J.J. Tripathi and G.D. Kedar, *International Journal of Chemical Engg.*, Vol. 2 (1), 73-77.
3. Thermal Stresses in a Circular Plate by a Moving Heat Source, K.C. Deshmukh, M.V. Khandait and R. Kumar, *Materials Physics and Mechanics*, Vol. 22, pp. 86-93.
4. Inverse Heat Conduction Problem in a Semi-infinite Hollow Cylinder and its Thermal Deflection by Quasi-static Approach, G.D. Kedar, K.C. Deshmukh, *Int. Journal of Applied Mathematics and Computation* Vol. 6(2), pp. 15–21.
5. Generalized thermoelastic diffusion problem in a thick circular plate with axisymmetric heat supply, J.J. Tripathi, G.D. Kedar and K.C. Deshmukh, *Acta Mechanica*, Vol. 226, No.7, pp. 2121-2134.
6. Thermal stresses in functionally graded hollow sphere due to non-uniform internal heat generation, S.P. Pawar, G.D. Kedar and K.C. Deshmukh, *Applications and Applied Mathematics: An international Journal*, Vol. 10 (1), pp. 552-569.
7. Theoretical Approach to Study Disturbances due to Mechanical Source in a Generalized Thermoelastic Diffusive Half Space, K.C. Deshmukh, J.J. Tripathi and G.D. Kedar, *Int. Journal of Chemical Engineering*, Vol. 2 (1), pp. 73-77.
8. An Inverse Mathematical Approach for Thermal Stresses in a Solid Sphere, V.S. Kulkarni, K.C. Deshmukh, A. Bhawe, *Int. Journal of Thermodynamics (IJOT)*, Vol. 18 (3), pp. 206-211.
9. Bulk viscosity in Friedmann universe with a varying speed of light de-scribed by modified equation of state, G.S. Khadekar, Arti Ghogare, *Int. J. Geometric Methods in Mod. Phys. Modern Phys.* Vol.12, pp. 1550126, World Scientific Publication, Singapore.
10. Brane Kantowski-Sachs Universe with Linear Equation of State and Future Singularity Gravitation and Cosmology Vol. 21, Issue 4, pp. 334 (Springer).
11. Noncommutative Geometry Inspired Wormholes with Conformal Motion, G.S. Khadekar, F.Rahaman, S. Ray, P K F Kuttting and I. Karar *Int. J. Theo. Phys.* Vol. 54, 699, (Springer).
12. FRW viscous Cosmology with Inhomogeneous Equation of State and Future singularity, G.S. Khadekar, Deepti Raut and V.G. Miskin, *Modern Phys. Lett. A*, Vol. 30, No.29 pp. 1550144 World scientific publication, Singapore.
13. (2+1)-dimensional cosmological model with generalized equation of state, G.S. Khadekar, *Int. J. Theoretical Physics*, Vol. 54(9), 3155-3161 (Springer).
14. Kaluza-Klein Type Cosmological Model with Ω Dependent Cosmological Constant and Big Rip Singularity, G.S. Khadekar, Rupali Wanjari, *Journal of Dynamical System and Geometric Theories*, Vol.13, No.1, 43-50, 20 (Taylor and Francis).
15. Bianchi type I cosmological model with varying G , Λ & σ^2 in VSL theory, G.S. Khadekar and Arti Ghogre, *Journal of Dynamical System and Geometric Theories*, Vol.13, No.2, pp 149-162 (Taylor and Francis).
16. Kaluza-Klein Type Cosmological Model of the Universe with Inhomogeneous Equation of Stat, G.S. Khadekar and Rajani Shelote, *Application and Applied Mathematics an Int. Journal (AMM)* Vol. 10, pp 104-1054.
17. Higher dimensional inhomogeneous spherical symmetric models with linear equation of state and varying cosmological term, G.S. Khadekar and Rajani Shelote, *Clifford Analysis, Clifford Algebra and their Applications*, Vol. 4, No. 2, pp. 131-140, 2015 (CSP - Cambridge, UK; I&S - Florida, USA).
18. Flat Friedman-Robertson-Walker model in the varying speed of light theory, G.S. Khadekar and V.G. Miskin, *Clifford Analysis, Clifford Algebra and their Applications*, Vol. 4, No. 2, pp.151-159, (CSP - Cambridge, UK; I&S - Florida, USA).
19. (2 + 1)-Dimensional viscous cosmological models with variable G and Λ , G.S. Khadekar and N.V. Gharad, *Clifford Analysis, Clifford Algebra and their Applications*, Vol. 4, No. 2, pp. 161-166, 2015 (CSP - Cambridge, UK; I&S - Florida, USA).
20. Two-Dimensional Steady State Thermoelastic Problem of Rectangular Slab with uniform heat Generation Subjected to Symmetric Heat Supply, A.S. Sewalkar and S.A. Meshram, *International Journal of Applied Mathematics* Vol. 28 No. 3, pp. 307-317.
21. Transient Thermoelastic Problem for Two Region Concentric Cylinder with Perfect Thermal Contact at the Interface, A.S. Sewalkar and S.A. Meshram, *Int. Journal of Applied Mathematics* Vol. 28 No. 3, pp. 477-494.
22. Evaluation of Binachi Type VI0 Magnetized Anisotropic Dark Energy Models With Constant Decleration Parameter in Bimetric Theory of Gravitation, M.S. Borkar and A.Ameen, *Int. journal of modern physics D*, Vol.24, NO.2, pp.1550019 world scientific publishing company.
23. Evaluation of flat FLRW model with variable equation of state and time variable a in rosen bimetric gravity, M.S. Borkar and A. Ameen.

2016

24. Dynamic Problem of Fractional Order Thermoelasticity for a Thick Circular Plate with Finite Wave Speeds, J.J. Tripathi, G.D. Kedar and K.C. Deshmukh, Journal of Thermal Stresses, Vol. 39, No. 2, 220–230.
25. A Brief Note on Generalized Thermoelastic Response in a Half Space due to a Periodically Varying Heat Source under Axisymmetric Distribution, J.J. Tripathi, K.C. Deshmukh and G.D. Kedar, International Journal of Thermodynamics (IJoT), Vol. 19 (1), pp. 1-6.
26. Generalized thermoelastic problem of a thick circular plate Subjected to axisymmetric heat supply, J.J. Tripathi, G.D. Kedar and K.C. Deshmukh, Journal of Solid Mechanics Vol. 8, No. 3, 578-589, (2016).
27. Generalized thermoelastic diffusion in a thick circular plate including heat source, J.J. Tripathi, G.D. Kedar and K.C. Deshmukh, Alexandria Engineering Journal (Elsevier), 55(3), 2241–2249.
28. Effects of Stress Resultants on Thermal Stresses in a Functionally Graded Rectangular Plate Due to Temperature Dependent Material Properties, V.R. Manthana, N.K. Lamba G.D. Kedar and K.C. Deshmukh, Int. Journal of Thermodynamics (IJoT) Vol. 19 (4), pp. 235-242.
29. Springbackward Phenomenon of a Transversely Isotropic Functionally Graded Composite Cylindrical Shell, V.R. Manthana, N.K. Lamba and G.D. Kedar, Journal of Applied and Computational Mechanics, Vol. 2(3), pp. 134-143.
30. Constructing ID- based cryptographic technique for IFP and GDLP based cryptosystem, Chandrashekhar Meshram and Suchitra Meshram, Journal of Discrete Mathematical Sciences & Cryptography (Taylor& Francis) Vol. 20 pp. 1121-1134.
31. Binachi Type I Hyperbolic Models With perfect fluid and dark energy in bimetric theory of gravitation, M.S. Borkar and, S.S. Charjan, V.V. Lapse, Applications and Applied Mathematics: An international Journal, Vol.11(1), pp.192-214.
32. LRS Binachi type II cosmological model with string bulk viscous fluid and magnetic field in barber second self-creation theory, M.S. Borkar and N.K. Ashtankar, Applications and Applied Mathematics: An international Journal Vol.11, ISSUE 1, pp.215-228.
33. Thermoelastic Problem of Transversely isotropic Finite Solid Circular Cylinder Subjected to an Asymmetrical Temperature Distribution. Clifford Analysis, A.S. Sewalkar and S.A. Meshram, Clifford Algebras and Their Applications CACAA. Vol.5 PP. 77-90.
34. Inhomogeneous Viscous Fluid Cosmological Model of the Universe: A Concrete Model of Dark Energy, G S Khadekar, Int. J. Geometric Methods in Mod. Phys. Modern Phys. (World Scientific Publication, Singapore) Vol.13, No.4, pp.1650037.
35. Casimir Effect Near the Future Singularity in Kaluza-Klein Viscous Cosmology, G.S.Khadekar, Rupali Wanjari ,Int. J. Theo. Phys., (Springer), Vol. 55(2), 706-714.

2017

36. Transient thermoelastic problem of a nonhomogeneous rectangular plate, V.R. Manthana, N.K. Lamba and G.D. Kedar, Journal of Thermal Stresses, Vol. 40(5), pp. 627–640.
37. Generalized thermoelastic problem of thick circular plate with Axisymmetric Heat Supply Due to Internal Heat Generation, J.J. Tripathi, G.D. Kedar and K.C. Deshmukh, Journal of Solid Mechanics, Vol. 9(1), pp. 115-125.
38. Thermal stress analysis in a functionally graded hollow elliptic-cylinder subjected to uniform temperature distribution, V.R. Manthana, N.K. Lamba and G.D. Kedar, Applications and Applied Mathematics: An International Journal (AAM), Vol. 12(1), pp. 613-632 (June 2017).
39. Generalised thermoelastic axi-symmetric deformation problem in a thick circular plate with dual phase lags and two temperatures, R. Kumar, V.R. Manthana, N.K. Lamba, G.D. Kedar, Materials Physics and Mechanics 32, 123-132.
40. Thermoelastic analysis of a nonhomogeneous hollow cylinder with internal heat generation, V.R. Manthana, N.K. Lamba, G.D. Kedar, Applications and Applied Mathematics: An International Journal (AAM), Vol. 12(2), 946–967.
41. Plane symmetric anisotropic dark energy cosmological model in the bimetric theory of gravitation, M.S. Borkar and A. Ameen, J. Astrophysics, Vol.60, NO.2.
42. Binachi type I anisotropic dark energy model with variable deceleration parameter in bimetric theory of gravitation, M.S. Borkar and A. Ameen, IJTPC, Vol.15(2).
43. FLRW solution in bimetric theory of gravitation, M.S. Borkar and A. Ameen, Int. journal of advance astronomy, 5 (2), 117-123.
44. Constructing ID- based cryptographic technique for IFP and GDLP based cryptosystem, Chandrashekhar Meshram and Suchitra Meshram, Journal of Discrete Mathematical Sciences and Cryptography (Taylor& Francis) Vol. 20 pp. 1121-1134.
45. Fractional order generalized thermoelastic problem in a thick circular plate with periodically varying heat source, J.J. Tripathi, K.C. Deshmukh, J. Verma, Int. Journal of Thermodynamics 20(3), 132-138.
46. Fractional heat conduction in a thin circular plate with constant temperature distribution and associated thermal stresses, S.D. Warbhe, J.J. Tripathi, K.C. Deshmukh, J. Verma, Journal of Heat Transfer 139 (4)
47. Generalized thermoelastic problem of a thick circular plate with axisymmetric heat supply due to internal heat generation, J.J. Tripathi, G.D. Kedar, K.C. Deshmukh, Journal of solid Mechanics 9 (1), 115-125.
48. Thermal behavior of functionally graded solid sphere with nonuniform heat generation, S.P. Pawar, K.C. Deshmukh, J. Verma, Journal of Thermal Stresses 40 (1), 86-95.
49. Fractional order thermoelastic deflection in a thin circular plate, J.J. Tripathi, SD Warbhe, K.C. Deshmukh and J. Verma, Applications and Applied Mathematics: An Int. Journal (AAM) 12 (2), 17.

50. Fractional order theory of thermal stresses to a 2 D problem for a thin hollow circular disk, J.J. Tripathi, S.D. Warbhe, K.C. Deshmukh, J. Verma, Global Journal of Pure and Applied Mathematics 13 (9), 6539-6552.
51. An IND-CCA2 secure public key cryptographic protocol using Suzuki 2-group, Akshay Meshram and N.W. Khobragade, Indian Journal of Science and Technology, Vol. 10 (12), pp. 1-8.

2018

52. Transient thermal stress analysis of a functionally graded thick hollow cylinder with temperature dependent material properties, V.R. Manthana and G.D. Kedar, Journal of Thermal Stresses, Vol. 41(5), 568–582 (March 2018).
53. Mathematical Modeling of Thermoelastic State of a Thick Hollow Cylinder with Nonhomogeneous Material Properties, V.R. Manthana, N.K. Lamba and G.D. Kedar, Journal of Solid Mechanics, Vol. 10(1) pp. 142-156, (2018).
54. Thermoelastic Analysis of a Rectangular Plate with Nonhomogeneous Material Properties and Internal Heat Source, V.R. Manthana, N.K. Lamba and G.D. Kedar, Journal of Solid Mechanics, Vol. 10(1) pp. 200-215, (2018).
55. Thermal stress analysis of a thermosensitive functionally graded rectangular plate due to thermally induced resultant moments, V.R. Manthana, G.D. Kedar and K.C. Deshmukh, Multidiscipline Modeling in Materials and Structures, Vol. 14 (5), pp.857-873, (Nov 2018).
56. Mathematical Modeling of Thermoelastic State of a Functionally Graded Thermally Sensitive Thick Hollow Cylinder with Internal Heat Generation, V.R. Manthana¹, G.D. Kedar, International Journal of Thermodynamics (IJoT) Vol. 21 (4), pp. 202-212, (Dec 2018).
57. Estimation of Thermoelastic State of a Thermally Sensitive Functionally Graded Thick Hollow Cylinder: A Mathematical Model, V.R. Manthana, N.K. Lamba and G.D. Kedar, Journal of Solid Mechanics, Vol. 10(4) pp. 766-778, (2018).
58. Fractional order generalized thermoelastic response in a half space due to a periodically varying heat source, J Tripathi, S. Warbhe, K.C. Deshmukh and J. Verma, Multidiscipline Modeling in Materials and Structures, Vol. 14(1), pp. 2-15.
59. Fractional heat conduction in a thin hollow circular disk and associated thermal deflection, S.D. Warbhe, J.J. Tripathi, K.C. Deshmukh and J. Verma, Journal of Thermal Stresses 41 (2), pp. 262-270.
60. Inhomogeneous Viscous Fluid Cosmological Model of the Universe with Effective Equation of State and Scalar Field, G S Khadekar, Rupali Talole, Int. J. Geometric Methods in Mod. Phys. Modern Phys, Vol. 15, No.5, pp 1850078 (World Scientific Publication, Singapore), (2018).
61. FRW Viscous Fluid Cosmological Model with Time Dependent Inhomogeneous Equation of States, G S Khadekar, Deepti Raut, Int. J. Geometric Methods in Mod. Phys. Modern Phys. Vol. 15, 1830001.
62. Little Rip Cosmological Models with Quadratic Equation of State with Time Dependent Parameters, G. S Khadekar, Rajani Shelote, Astrophysics and Space Sci. (Springer) Vol. 363 (2), pp. 36.

2019

63. (2+1) dimensional cosmological models in $f(R, T)$ gravity with (R, T) , G.S. Khadekar, Safiqul Islam, Praveen Kumar and Tapas K. Das, Journal of Physics: Conference Series: 1258, 012026 (IOP Publication).
64. Possible formation of wormholes from dark matter in isothermal galactic halo and void, G.S. Khadekar, Nayan Sarkar, Sumit Sarkar, Farrok Rahaman, P K F Kuhfittig, Mod. Phys. Lett. A Vol. 34. No 23, 1950188-1-12.
65. Holographic Dark Energy with Extended Chaplygin Gas Model, G.S. Khadekar, Aina Gupta, “Journal of Dynamical Systems & Geometric Theories, Vol. 17(2), pp. 239–266.
66. Kaluza- Klien Type Cosmological Model with Extended Chaplygin Gas, G S Khadekar, N. A. Ramtekkar, Journal of Dynamical System and Geometric Theories (JDSGT) (Publisher: Taylor & Francis), Vol.17, No.1, 57-65.
67. (2+1) dimensional cosmological models in $f(R, T)$ gravity with (R, T) , G.S. Khadekar, Safiqul Islam, Praveen Kumar and Tapas K. Das, Journal of Physics: Conference Series: (IOP Publication) 1258, 012026.
68. On thermoelastic problem of a thermosensitive functionally graded rectangular plate with instantaneous point heat source, V.R. Manthana, G.D. Kedar, Journal of Thermal Stresses, Vol. 42(7), pp. 849-862.
69. Effect of Magnetic Field due to Eddy Current Loss on Temperature Distribution and Thermal Stresses, L.C. Bawankar, G.D. Kedar, Journal of Applied Science and Computations, Vol. 6(4), pp. 3683-3694.
70. Transient Thermoplastic Problem of annular disc due to axisymmetric heat supply and removal of heat supply, Arti S. Sewalkar and Suchitra A. Meshram, Journal of computer and Mathematical science, vol.10(5), 1043-1051.
71. Transient thermal stresses due to axisymmetric heat supply in a semi-infinite thick circular plate, S.D. Warbhe, K.C. Deshmukh, Applications and Applied Mathematics 14 (1), pp. 573 - 585
72. Hygrothermoelastic response of a finite solid circular cylinder, NK Lamba, KC Deshmukh, Multidiscipline Modeling in Materials and Structures, Vol. 16 No. 1, pp. 37-52.

2020

73. Hygrothermoelastic response of a finite solid circular cylinder, N.K. Lamba, K.C. Deshmukh, Multidiscipline Modeling in Materials and Structures 16 (1), 37-52

74. Viscous Extended Cosmic Chaplygin Gas with Varying Cosmological Constant in FRW Universe, G.S. Khadekar, Aina Gupta and S.M. Jogdand, Iran J. Sci Trans Sci. Vol. 44, 299-309, (Springer publication) (2020).
75. Charged perfect fluid sphere in higher-dimensional spacetime, P. Bhar, T. Manna, F. Rahaman, S. Ray, G.S. Khadekar, Indian Journal of Physics 94, 1679-1690.
76. Analytical solution of heat conduction of a multilayered annular disk and associated thermal deflection and thermal stresses, V.R. Manthena, V.B. Srinivas, G.D. Kedar, Journal of Thermal Stresses 43 (5), 563-578 (2020).
77. Thermoelastic Behavior in a Multilayer Composite Hollow Sphere with Heat Source, S.P. Pawar, J.J. Bikram, G.D. Kedar, Journal of Solid Mechanics, Vol. 12(4), pp. 883-901 (Aug 2020).
78. Study of Time fractional heat conduction equation in rectangular plate, J.J. Bikram, G.D. Kedar, V.M. Raut, NOVYI MIR Research journal, Vol. 5(10), pp. 93-104, (Oct 2020).
79. Effect of temperature dependency in a one-dimensional two-temperature magneto-thermoelastic problem due to the influence of modified Ohm's law, L.C. Bawankar, G.D. Kedar, K.C. Deshmukh, Journal of Solid-State technology, Vol. 63(4), pp. 5870-5885, (2020).

2021

80. Mathematical Modelling of COVID-19 in Pregnant Women and Newly Borns, N.K. Lamba, S.D. Warbhe, K.C. Deshmukh, Mathematical Analysis for Transmission of COVID-19, 337-348
81. Impact of COVID-19: A mathematical model, S.D. Warbhe, N.K. Lamba, K.C. Deshmukh, Journal of Interdisciplinary Mathematics 24 (1), 77-87
82. FRW Viscous Dark Fluid with Non-linear Inhomogeneous Equation of State, D. Raut, G. Khadekar, A. Ghogre, Communications in Mathematics and Applications 12 (4), 869
83. Bianchi Type I Cosmological Model with Viscous Fluid in the Framework of VSL Theory, A.S. Ghogre, G.S. Khadekar, D. Raut, Communications in Mathematics and Applications 12 (4), 913
84. Bulk Viscous Bianchi Type-III Cosmological Model with Modified Takabayasi String in the Presence of Varying, A.S. Sen, G.S. Khadekar, S. Samdurkar, Journal of Dynamical Systems and Geometric Theories 19 (1), 95-112
85. Fractional Order heat conduction and thermoelastic response of a thermally sensitive rectangular parallelepiped V.B. Srinivas, V.R. Manthena, Jaya Bikram, G.D. Kedar, Int. Journal of Thermodynamics, Vol. 24(1), pp. 62-73 (Mar 2021).
86. Analysis of Thermal Behaviour of a Thermosensitive FG Plate V.B. Srinivas, V.R. Manthena, G.D. Kedar, Solid State Technology, Vol. 64(2), pp. 4794-4802, (2021).
87. A Communication Network Routing Problem: Modeling and Optimization Using Non-Cooperative Game Theory, S.P. Dubey, G.D. Kedar, S.H. Ghate, Int. Journal of Applied Mathematics and Computer Science, Vol. 31(1), 155-164 (2021).
88. Memory response of magneto-thermoelastic problem due to the influence of modified Ohm's law, L.C. Bawankar, G.D. Kedar, Applications and applied mathematics: An International Journal, Vol. 16(1), pp. 1-21 (2021).
89. Magneto-thermoelastic problem with eddy current loss of a thermosensitive conducting plate, L.C. Bawankar, G.D. Kedar, Advances in Mathematics: Scientific journal Vol. 10(1), pp. 557-570 (2021).
90. Analysis of Probability Distribution Due to Aspiration Level in Fuzzy Matrix Game, S.P. Dubey, G.D. Kedar, Communications in Mathematics and Applications 12 (3), 595.
91. Study of Thermoelastic behaviour, Efficiency and Effectiveness of Rectangular Fin with Fractional Order Energy Balance Equation, J. Bikram, G.D. Kedar, International Journal of Thermodynamics 24 (3), 216-225.

2022

92. Memory impact of hygrothermal effect in a hollow cylinder by theory of uncoupled-coupled heat and moisture, J. Verma, N.K. Lamba, K.C. Deshmukh, Multidiscipline Modeling in Materials and Structures 18 (5), 826-844
93. Analysis of homogeneous anisotropic Bianchi-V cosmological model with relativistic hydrodynamic, G.S. Khadekar, K.A. Husain, S.D. Tade, Journal of the Tensor Society 16 (01), 20-39
94. Magnetized Quark and Strange Quark Matter in the Higher Dimensional Spherically Symmetric Space Time Admitting One Parameter Group of Conformal Motions, S.R. Kumbhare, G.S. Khadekar, Journal of Dynamical Systems and Geometric Theories 20 (1), 67-79
95. Two Fluids Cosmological Model in $(2+1)$ -Dimensional Saez-Ballester Scalar-Tensor Theory of Gravitation, P. Kumar, G.S. Khadekar, V.J. Dagwal, Journal of Dynamical Systems and Geometric Theories 20 (1), 91-114
96. Initial stress and modified Ohm's law in magneto-thermoelastic problem under three theories with microtemperatures and voids, L. Bawankar, G.D. Kedar, International Journal of Thermodynamics 25 (1), 54-63.

2023

97. (R2028) A Brief Note on Space Time Fractional Order Thermoelastic Response in a Layer, N. Lamba, J. Verma, K. Deshmukh, Applications and Applied Mathematics: An International Journal (AAM) 18 (1), 18
98. A Brief Note on Space Time Fractional Order Thermoelastic Response in a Layer, N. Lamba, J. Verma, K. Deshmukh, Applications & Applied Mathematics 18 (1)

99. Study of Hysteresis and Eddy Current loss of One-dimensional Magneto-thermoelastic problem, B.B. Balpande, G.D. Kedar, The International Journal of Engineering and Science 12 (7), 29-40.
 100. Effect of Thermosensitivity on Heat Conduction and Stresses of a Multilayered Annular Disk, G.D. Kedar, V.B. Srinivas, V.R. Manthena, Journal of Solid Mechanics 15 (2).
 101. Transient hygrothermal response of an infinite solid cylinder with internal heat generation, T.F. Islam, G.D. Kedar, S. Anwar, Journal of Thermal Stresses 46 (9), 895-908.
 102. Hygrothermal analysis of a semi-infinite cylinder: an integral transform approach, T.F. Islam, G.D. Kedar, S. Anwar, Multidiscipline Modeling in Materials and Structures 19 (6), 1262-1274.
 103. FRW Viscous Cosmology for Varying, and, with Inhomogeneous Equation of State, A.S. Ghogre, G.S. Khadekar, D. Raut, Communications in Mathematics and Applications 14 (2), 493
- 2024**
104. Memory Dependent Response in An Infinitely Long Thermoelastic Solid Circular Cylinder, N.K. Lamba, K.C. Deshmukh, PNRPU Mechanics Bulletin, 5-12
 105. A Quasi-Static Approach for Inverse Hygrothermal Problem and Stress Analysis in Semi-Infinite Circular Plates, G.D. Kedar, T.F. Islam, International Journal of Applied and Computational Mathematics 10 (1), 6.
 106. Hygrothermal buckling analysis of thin rectangular FGM plate with variable thickness, T.F. Islam, G.D. Kedar, Engineering Computations.
